EDUCATION

B.Tech in Computer Science and Engineering

Galgotias College of Engineering and Technology | cgpa: 8.46

(2023 – 2027)

Intermediate

Mahamaya Balika Inter College | percentage - 92

(2022 – 2023)

High School

Mahamaya Balika Inter College | percentage - 90.2

(2020 – 2021)

PROJECTS

Connectus | React.js, Node.js, Express, MongoDB, Socket.io, WebRTC

- Built a real-time video conferencing platform using WebRTC and Socket.io for peer-to-peer communication.
- Implemented signaling and live media exchange workflows for low-latency audio/video transfer.
- Developed a responsive React frontend with secure authentication and meeting history.
- Designed a scalable backend using Node.js, Express, and MongoDB for event-driven communication.

StockPulse | React.js, Node.js, Express, MongoDB, Chart.js, REST APIs, JWT

- Built a stock portfolio management system to track holdings, orders, positions, and funds.
- Developed an interactive dashboard with Chart.js for visualizing portfolio performance.
- Implemented user authentication using JWT and bcrypt for secure access control.
- Designed REST APIs for structured data flow between frontend and backend

Livaa | Node.js, Express, MongoDB, Bootstrap, MVC, Mapbox, Cloud

- Developed a rental management platform for property listings, search, and secure authentication
- Integrated Mapbox API for interactive maps and location-based property search.
- Built the backend using MVC architecture for better scalability and maintainability.
- Created a responsive UI with Bootstrap and deployed the application on cloud services.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Frontend: HTML, CSS, Bootstrap, React.js, Tailwind css

Backend: Node.js, Express.js, AJAX, REST API

Databases: MongoDB, MySQL

Frameworks and Tools: GitHub, VS Code, MVC Pattern, Cloud Deployment, JWT, Authentication, Security

Core Areas: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

ACHIEVEMENTS

Smart India Hackathon 2025 (Internal Round)

Team Leader, Team DataNuts

- Led the development of INTERNIFY, an AI-driven recommendation engine for the PM Internship Scheme Portal.
- Designed backend architecture and secure RESTful APIs using Node.js, Express.js, and MongoDB.
- Coordinated a 6-member team to build a system for improved internship matching and allocation.

Coding Profile

LeetCode Platform

- Solved 470+ Data Structures and Algorithms problems across LeetCode and GeeksforGeeks.
- Regular participant in coding contests and problem-solving challenges.
